Standing Item Action Point SC/M18/AP1
Issued: 30 May 2025

Gender in CGIAR's Research

Objective of this Presentation

- Vision for the gender accelerator and how will plan to embed in the 2025-2030 CGIAR Science Portfolio
- Proposed KPIs for the Gender, Youth and Social Inclusion impact area

Women's Role in Agrifood Systems

Women = >50% of Workforce

Vision for Gender Accelerator

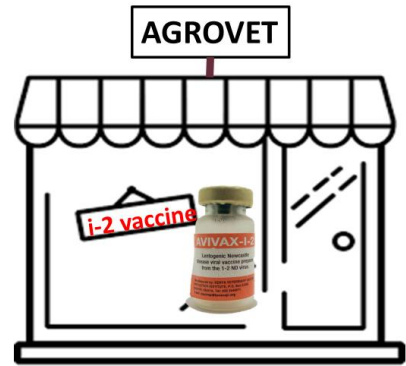

- **Beyond** Technical Solutions
- **Embed** in the Science programs
- **Impact-driven** outcomes and performance indicators

Beyond Technical Solutions

Why low adoption?

- 2 main reasons:
1. Vaccines do not reach area
 2. They do not reach women or youth

Cowtribe

I did not hear about a vaccine

5

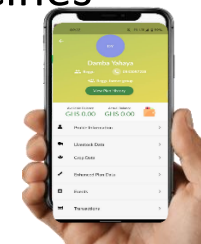

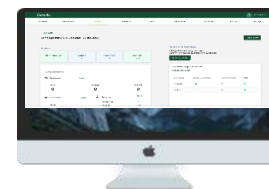

I can't get to the agro vet
and can't call the vet

I can't even say that
this chicken is mine!

Deliver vaccines with drones

Develop App for women and men to order vaccines

Technical challenge
'No infrastructure to deliver vaccines'

Developed storage facilities

Beyond Technical Solutions

Technical challenge

'No infrastructure to deliver vaccines'

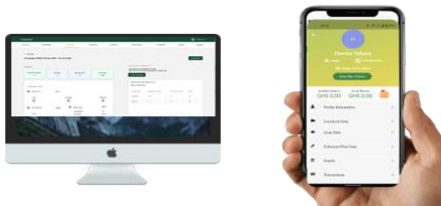

Deliver vaccines with drones

Developed storage facilities

Develop App for women and men to order vaccines

Socio-institutional challenge: 'Gender norms'

Women vets to reach women farmers

Accommodative approach

Community conversations and gender champions to question the norm

Transformative approach

Women farmers vaccinate livestock & control benefits

Empowerment of women farmers and better household nutrition

Embed in Science Programs - Reflections

Safety Culture Shift

Impact-driven Outcomes & Performance Indicators

Impact Level – Gender Equality, Youth & Social Inclusion

Current Indicators	Proposed Indicators
Women's Empowerment & Inclusion in the Agricultural Sector	# Women with Improved Empowerment in Key Domains: <ul style="list-style-type: none"> a) # women with improved inputs into farm decision-making b) # of women with improved control over income c) # of women with increased access to productive assets
# of Women Benefiting from Relevant CGIAR Innovations	Gender Gap in Economic Benefits Reduced <ul style="list-style-type: none"> a) # of households/targeted areas with reduced gender productivity gaps b) # of households/targeted areas with reduced gender income gaps
# of Youth Benefiting from Relevant CGIAR Innovations	Will be a disaggregate in the Poverty Impact Area, where feasible
# of Women Assisted to Exit Poverty	Will be a disaggregate in the Poverty Impact Area, where feasible

Final Remarks

Gender Accelerator to:

- Drive for **impact** with new KPIs, embedding action in science programs/accelerators
- Finance at a **minimal viable** level & review at 3 years
- Develop plans for **Youth**, including a resource mobilization strategy
